

THE MEMORY OF YOUR BUSINESS

Your file server already
knows the answer.
The problem is finding it.

SOUND FAMILIAR?

- “Where’s the latest version?”
- “Didn’t we quote for this before?”
- “I know someone wrote this down somewhere...”
- “I’ll have to ask Dave.”

Every business has this problem.

Cortex solves it.

Like your most experienced employee — one who’s read every document,
remembers every project, and answers in seconds.

THE OLD WAY

- Search the shared drive.
- Twenty folders. Three spreadsheets.
- Ask a colleague. Wait.
- Found it. Eventually.

WITH CORTEX

- Ask a question.
 - The answer. In seconds.
- Source included.

ASK CORTEX ANYTHING ABOUT YOUR BUSINESS

- “What did we quote them last time?”
- “How many of part 4471 are left in stock?”
- “Which version of this procedure is current?”

EVERY ANSWER SHOWS ITS SOURCE

YOU ASK

“Which jobs used part 4471?”

CORTEX

Three jobs: 2184, 2209 and 2217.

Quote_2209.pdf

Job_2184.pdf

Not in your files? It says so.

“CAN'T I JUST USE A FREE AI CHATBOT?”

You can. But it doesn't know your business. Cortex does a different job:

A PUBLIC CHATBOT

Excellent at general knowledge.

Upload files by hand, every time.

No idea who sees what.

Runs in someone's cloud.

Cortex doesn't replace your knowledge. It unlocks it.

CORTEX

Expert in your business.

Connected to your drives.

Respects your permissions.

Under your control — on site.

See it answer your questions.

Book a free demo — on your files, in your building.

One box. Whole team. No usage caps.
