

THE MEMORY OF YOUR BUSINESS

FOR MANUFACTURING & PRINT

Every job you've ever run is on that server. Cortex lets you ask it.

Specs, quotes, setup sheets, past jobs — the knowledge is already yours. Cortex reads it and answers, with the source shown every time.

SOUND FAMILIAR?

- “What did we quote for this spec last time?”
- “Which jobs used this material or stock?”
- “Where's the setup sheet for this machine?”
- “What lead time did we promise on similar runs?”

See it answer your questions.

Book a free 15-minute demo — on your own files.
